SKILLS

HTML   CSS   Responsive Web Design
JavaScript   JAVA   OOPs Concepts
Algorithms   MySQL   DBMS
Prompt Engineeering   Teamwork
Adaptability   Problem-solving   Leadership
Time-management

PERSONAL PROJECTS

DEVCOMMS

- **Developed** an advanced real-time messaging platform with an integrated code compiler.
- **Facilitating** instantaneous code sharing and communication among developers, significantly boosting team productivity and reducing code review time by 30%.
- It is being engineered with a powerful stack of cutting-edge technologies including Next.js 13, React, Tailwind, Prisma, MongoDB, Next AUTH, and Pusher.

Responsive Web Pages

- **Built** responsive Pages named as **Fashion Page** and **Shop-Jacket** using HTML and CSS, resulting in 80% increase in visitors.
- **Created** responsive design strategies to ensure seamless compatibility across diverse gadgets.

Number Guessing Game

- **Established** a Number Guessing game using JAVA.
- The game generates **a random number** between 1 and 100 and the player has 10 attempts to guess the number.
- Points are **awarded** based on how quickly the player guesses the correct number
- **NOTE**: 10 points minus the number of attempts made.
- The **game ends** when the player used all the 10 guesses or chooses not to play another round, and their total points are displayed.
